DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5/15/2006 has been entered.

Response to Arguments

2. The Applicant's arguments filed 5/15/2006 are not persuasive. As Bernabeo(U.S Patent Publication 2001/0054010) discloses the device not operable without the device code see Par. 0028 as Bernabeo mentions the device given to the purchaser or else the device is idle and not operable. It is suggestive that when the device is given to the purchaser so that he/she may use it(operable), but as it sits inventory it is unlikely to be in operable state because such would be waste of resources(power, battery). And further, Bernabeo discloses the operability being reliant on the redemption code received from the purchaser, thus effectively controlling the usability of the device. And finally, the operability/controllability of the device is further illustrated with the movie theater admittance being reliant on the redemption code see Par. 0030.

3. The Applicant's argument's regarding Claim 5 is not persuasive. As Bernabeo discloses the database reading out for the device see Par. 0028 and commissioning it to the purchaser.
4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

5. Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent Publication 2001/0054010 A1 to Bernabeo et al.(hereinafter Bernabeo).
6. Claim 1-4 rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Publication No. 2001/0054010 A1 (with priority under 119(e) based on 60/202251 filed on 5/5/2000) to Bernabeo et al.(hereinafter Bernabeo).
7. Regarding Claim 1, Bernabeo discloses the storing of device number and device code in a database see Par. 0027-0028(Bernabeo discloses of further having a purchaser redemption code associated with each device this suggest that a number be part of this in order for there to be an link be particular purchaser and redemption code, further illustrated by the movie access disclosed by Bernabeo see Par. 0030). Bernabeo further discloses the delivery of the device see Par. 0036 & Fig. 5A item 106; Bernabeo also discloses the readout simultaneously of

the code in conjunction with the device number from a database for use for the first time see Par. 0028. Bernabeo discloses the operability/controllability of the device being reliant on the redemption code received from the purchaser, and only upon the receipt and validation of the code with the one in the database can the purchaser be access to the device see Par. 0028. And also see arguments above.

8. Regarding Claim 2, Bernabeo discloses the storing of code in a unchangeable memory area that can not be read by outsiders see Par. 0013 & Par. 0036.
9. Regarding Claim 3, Bernabeo discloses the code number being invoice number see Par. 0027.
10. Regarding Claim 4, Bernabeo discloses the storing of device number and device code in a database see Par. 0027-0028 (Bernabeo discloses of further having a purchaser redemption code associated with each device this suggest that a number be part of this in order for there to be an link be particular purchaser and redemption code, further illustrated by the movie access disclosed by Bernabeo see Par. 0033).
